

## Nimsoft acquires Indicative Software

Nimsoft Inc. said Tuesday it acquired Indicative Software Inc. to add business service management and end user response time monitoring capabilities to its offerings.

Financial, staffing, and other details of Nimsoft's deal with the Ft. Collins, Colo.-based company were not disclosed.

Redwood City-based Nimsoft focuses on network, server, database and application monitoring.

Nimsoft CEO Gary Read will continue to lead the company under the Nimsoft brand.
