

Join the Revolution...

The Nimsoft Unified Monitoring Alliance

THE NIMSOFT PARTNER PORTAL – YOUR ONE-STOP SHOP

Once you become an Alliance member, you will have exclusive access to the Nimsoft Partner Portal where you can find all the tools you need to build your company's Unified Monitoring solutions and streamline your productivity, including:

- Sales and co-marketing tools
- Development resources including Nimsoft solutions, software development kits, and API's
- Access to Nimsoft technical support
- Product training resources

Next-Generation Performance and Availability Monitoring, Comprehensive Resources, Rewarding Opportunities

By joining the Nimsoft Unified Monitoring™ Alliance, your company benefits by aligning with the leading provider of next-generation performance and availability monitoring solutions combined with comprehensive, programmatic resources designed to differentiate, distinguish, and reward you. As an alliance member, your company gains exclusive access to resources to help you drive both license and service business, create new opportunities, increase offerings and grow your customer base.

Our comprehensive partner program, the Nimsoft Unified Monitoring Alliance, provides you with the tools and resources you need to meet customers' ever-changing and demanding IT availability and performance needs—allowing you to differentiate your company and achieve a long-term competitive advantage.

Pick the Partner Program Right for You

The Nimsoft Unified Monitoring Alliance consists of three types of partners: Service Provider Partners, Solutions Partners, and Technology Development Partners. Your company may choose to participate as multiple partner types based on your needs.

SERVICE PROVIDER PARTNERS

Hosting, cloud, managed service, and other service providers, as well as other companies that deliver solutions and services monitored by Nimsoft software.

SOLUTION PROVIDERS

Partners, such as ISVs and SaaS providers, that enhance the Nimsoft Unified Monitoring Solution by combining their technology product and services with Nimsoft's next-generation performance and availability monitoring solutions to deliver complete IT service management solutions.

TECHNOLOGY DEVELOPMENT PARTNERS

Designed for commercial software developers, who leverage Nimsoft solutions and technical resources to deliver data collection probes exclusively for Nimsoft customers.

Join Today

3 EASY STEPS TO GETTING STARTED

ABOUT NIMSOFT

Nimsoft is the first provider of Unified Monitoring™ solutions for virtualized data centers, hosted and managed services, cloud platforms, and SaaS resources. With a proven time to value measured in weeks, the Nimsoft Monitoring Solution™ (NMS) reduces an enterprise's total cost of ownership by up to 80 percent compared to legacy systems management vendors, while scaling and extending to places they just cannot go. The Nimsoft Unified Monitoring architecture eliminates the need to deploy a new monitoring solution for outsourced services, public or private clouds, or SaaS implementations. Nearly 1,000 customers use Nimsoft Unified Monitoring solutions, including both mid-market and global organizations such as Amway Corporation, Barclays Capital, Casual Male, European Medicines Agency (EMEA), Ladbrokes, TriNet, and hundreds of leading hosting, cloud, and managed service providers such as 1&1 Internet, CDW, Hitachi, and Rackspace. For more information, visit www.nimsoft.com. To see the Nimsoft Unified Monitoring architecture in action, visit the Nimsoft public portal at www.unifiedmonitoring.com.
