**About Nimsoft**

Nimsoft is the fastest growing provider of next-generation performance and availability monitoring solutions for the complete physical, virtual, and cloud-based IT infrastructure. Nimsoft solutions redefine the standards for ease of use and speed of deployment—providing outstanding return on investment and unparalleled customer satisfaction. Over 800 customers in 36 countries rely on Nimsoft solutions to monitor their IT-based business applications and services, including cloud environments. These customers include mid-market and global organizations, such as Barclays Capital, Amway Corporation, Bay Area Rapid Transit, Ladbrokes, MTU Aero Engines, TriNet, and TRW Automotive, and hundreds of leading managed service providers, such as CDW Hosting Services, ENKI, Thomas Duryea, Easynet, and Rackspace Managed Hosting. For more information, visit www.nimsoft.com.
